

## PCCC Continuing Education

Spring and Summer 2012

# College Placement Test Math Refresher Courses

Once you've applied to college, you need to take the college's placement test. The results of this test may require you to take basic skills courses that don't count towards academic credit. Taking a refresher course may improve your placement and save you a semester or more! Possible benefits include:

- increase your chances of entering directly into academic credit-bearing courses
- increase your likelihood of graduating on time
- reduce the cost of your education
- increase the chances of completing your degree

If you fit one or more of the following situations, a math refresher course may be just what you need to accelerate your learning:

- had trouble doing arithmetic and algebra
- been out of school for a while
- are planning to take the college placement test, or
- have taken the placement test and were disappointed with your results

**Cost: \$89 each**

**Instructional Time: 24 hours**
