Economic Modeling Specialists Intl turns labor market data into useful information. EMSI's historic labor market information connects industry, occupation, and education data and is the centerpiece of **Analyst**: a national database compiled from 90+ data sources and updated quarterly.

NATIONAL STUDENT  
CLEARINGHOUSE

**StudentTracker**<sup>SM</sup>

**StudentTracker**<sup>SM</sup> is the only nationwide source of college enrollment and degree data. More than 3,600 colleges and universities — enrolling 98% of all students in public and private U.S. institutions. Through StudentTracker, you can:

- 1) Access nationwide postsecondary graduation data for your student group.
- 2) Track students' enrollment across all types of postsecondary institutions.
