

# New Programs @ PCCC

*Posted October 30, 2013*

## If We Had a Fourth “C,” It Would Be for “Careers.”

**PCCC offers over 60 degree and certificate programs** in fields as traditional as math or education and as timely as Homeland Security. Plus, we add new programs regularly to keep pace with growth industries, so our students prepare for fields with promising future employment opportunities at various job levels.

**PCCC professors** bring real-world experience to their classrooms, giving students an edge in career preparation and networking.

**PCCC degree programs** provide students with a strong general education, so they can transfer smoothly and continue their education in a bachelor’s degree program at a four-year college or university.

## Here’s What’s New Right Now!

### **SPORTS MANAGEMENT**

#### **Have a Passion for Sports and a Head for Business?**

The sports/fitness/health industry is booming, and these programs are designed for people interested in the business side of the industry. Students can prepare for a wide range of careers from sports administration to fitness facility management, sports agent, or personal trainer.

*Read more about our degree and certificate programs in Sports Management:*

- [Associate in Science \(A.S.\) Degree in Business Administration/Sports Management](#)
- [Certificate in Sports Management](#)

### **STUDIO ARTS**

#### **Want to Design a Creative Career?**

Students in this degree program will study with PCCC professors who are working artists as well as experienced educators. In addition to classes in drawing, art history, design, and color theory, students will get expert guidance in portfolio preparation, pursuing work in the field, and making

contacts. PCCC also maintains two substantial art collections, an invaluable learning resource, as well as gallery space, offering students exhibition opportunities.

- [Associate in Arts \(A.A.\) Degree in Liberal Arts/Studio Arts](#)

## **HUMAN SERVICES/MENTAL HEALTH**

### **Do You Find Fulfillment By Helping Others?**

Healthcare is one of the fastest growing fields with strong job demand. These programs prepare students for careers at various levels of the field, from being part of a multidisciplinary treatment team to coordinating services, facilitating counseling sessions, or presenting written case studies.
