Liberal Arts: Mathematics	AS	
Liberal Arts: Nutrition	AS	
Liberal Arts: Physical Science	AS	
Technical Studies		
Technical Studies	AAS	

* The Nursing and Radiography programs have a 2 phase admissions process. Phase 1 is open to all students but does not guarantee admission to Phase 2 which is selective. In programs where demand exceeds space available, first preference is given to Passaic County residents. Contact the department for full admission criteria.

** The Health Science program is for those who are currently licensed or certified in a health science field or a graduate of a hospital-based or accredited post-secondary health program.

*** These programs are offered jointly with Rutgers-Biomedical and Health Sciences. Acceptance to the professional phase of the program is determined by Rutgers and is competitive and not guaranteed. See the PCCC College Catalog for admissions requirements.

+ Applicants to Nursing, Radiography, Occupational Therapy Assistant, Health Information Mgmt. and Public Health must attend an Information Session for health-related careers. Contact Admissions or the Department for the next session.
