jhamberlin@pccc.edu

Participants in this workshop will learn how to assess students' specific problems, identify corresponding strategies, implement programming, and manage successful ADD/ADHD students in many different settings within the school. This workshop is designed to help school staff working with ADD/ADHD students address their academic, behavioral, social and emotional needs of their students.

- Participants will learn effective ways to assess the typical problems these students experience.
- Participants will learn how to develop and implement interventions in classrooms and less structured schools settings.
- Participants will learn what the future holds for the work and effort contributed to their students.
- Participants will be able to share their knowledge about these students and better help others who are working with ADD/ADHD students.

Don't miss this opportunity to
enhance your teaching skills.

Register today.
