The Hamilton Club
Conference Facility

Founded in 1890 by a group of Paterson’s top industrialists, the Hamilton Club was intended as a place where members could pursue recreational, social, and intellectual activities amid congenial surroundings. Today Passaic County Community College is continuing that tradition in the Hamilton Club Conference Center. This center, in the original Hamilton Club building, combines the familiar warmth and comfort of the club along with modern meeting facilities. The center has small conference rooms and a large seminar room that can accommodate groups of approximately 100. Looking for a state of the art teleconferencing facility? We have it! The teleconference room can link to others sites or connect you with satellite meetings and conferences. Ample parking now available! Teleconferencing capabilities are also available in Wayne.

The Center, located at 32 Church Street in Paterson, is available for meetings and conferences. Floor plan and pictures are available on the web. To inquire about rental contact the Continuing Education Office at 973-684-6152 or jvanhassel@pccc.edu

The GED Testing Services have long provided accommodations to candidates with disabilities and is committed to compliance with the requirements of the American Disabilities Act (ADA). In an effort to make GED tests accessible to all applicants, accommodations are made for candidates with diagnosed physical, mental, sensory, or learning disability who can provide appropriate documentation from a qualified professional verifying the impairment and its affect on their ability to take the GED Test under standard conditions.

A form must be secured from the GED Testing office prior to these accommodations being approved. It is the responsibility of the candidate to have this form completed and returned so it can be processed accordingly.

For Groups By Request

In addition to the courses listed above, the following classes are available for delivery at your place of business or at our facilities upon your request. Please call (973) 304-6022 for information.

Security Officer Training (24 hours)
The newly enacted New Jersey Security Officer Registration Act (SORA) now requires a person seeking to be employed as, or perform the functions and activities of a security officer, must complete a 24 hour course of instruction and pass an examination. This course of instruction must be taught by a NJSP certified security officer instructor. The instructors prepare you for the examination by providing a minimum of two hours of instruction in each of the following areas: Homeland Security/Counter Terrorism, communications/emergency response, theft prevention, use of force, detention of suspects, ethics and professional conduct, first aid/CPR/AED. You will be fully prepared to take the mandated certification exam as required by SORA.

Firefighter I (135 hours)
This course is designed around the NFPA Standard 1001 and the New Jersey Division of Fire Safety Standard. You will acquire sufficient skill and knowledge of the course material to allow you to function as an effective fire ground participant under direct supervision of departmental officers.

Firefighter II (84 hours)
This course is designed around the NFPA Standard 1001 and the New Jersey Division of Fire Safety Standard. You will acquire sufficient skill and knowledge of the course.
material to allow you to function as an effective fire ground participant to the extent that direct supervision is not required. This course builds on the Firefighter I curriculum while introducing new material and rolling responses giving you command experience.

**Company Officer Course (80 hours)**
This course focuses on operational awareness, firefighting and life safety considerations, along with strategic and tactical issues during command and officer level fire ground operations. This course is critical to both the firefighter seeking to ascend to the officer level and to the current officer to sharpen your fire ground and command knowledge portfolio.

**Arson Detection for the First Responder (15 hours)**
This course will provide fire and police personnel much of the information required to assist a trained investigator in making on-scene fire cause determinations.

**Automobile Firefighting (6 hours)**
This course is designed to make you aware of the many hazards of automobile fire fighting and to develop and implement procedures to meet those hazards.

**Building Construction Principles: Fire Resistive & Non-Combustible (15 hours)**
This course is designed by the National Fire Academy for firefighters to gain an understanding of how the construction type, alterations, design and materials will influence a building reaction to fire. The goals are to reduce firefighter injuries in building fire, improve operational effectiveness, improve pre-fire plans and communication with building department officials, designers, builders and the public on building construction and fire.

**Building Construction Wood & Ordinary (21 hours)**
This course is designed by the National Fire Academy for firefighters to gain an understanding of how the construction type, alterations, design and materials will influence a building reaction to fire. The goals are to reduce firefighter injuries in building fire, improve operational effectiveness, improve pre-fire plans and communication with building department officials, designers, builders and the public on building construction and fire.

**Critical Incident Stress Management (3 hours)**
You will learn about stress in the fire service and how to apply sound stress managing principles.

**Electrical Emergency Response (PSE&G) (3 hours)**
This program discusses a variety of types of electrical equipment on utility poles and structures. Potential hazards during ground operations as well as possible dangers during ladder operations will also be discussed.

**Elevator Rescue Lecture (3 hours)**
This program will present and discuss options available for effecting rescues from elevators. Elevator equipment, safety devices, and basic design will be displayed and demonstrated through the use of props.

**Emergency Response to Terrorism: Tactical Considerations for Company Officers (16 hours)**
This National Fire Academy course addresses the special needs of responders to incidents which may have been caused by terrorist action.
